HSS Step Drills

2 Flute Straight

- Self-starting split point removes the need for a pilot hole
- TiN coating reduces heat & increases lubricity for extended life
- Laser etched hole diameter
- Premium M2 HSS raw material for extended life

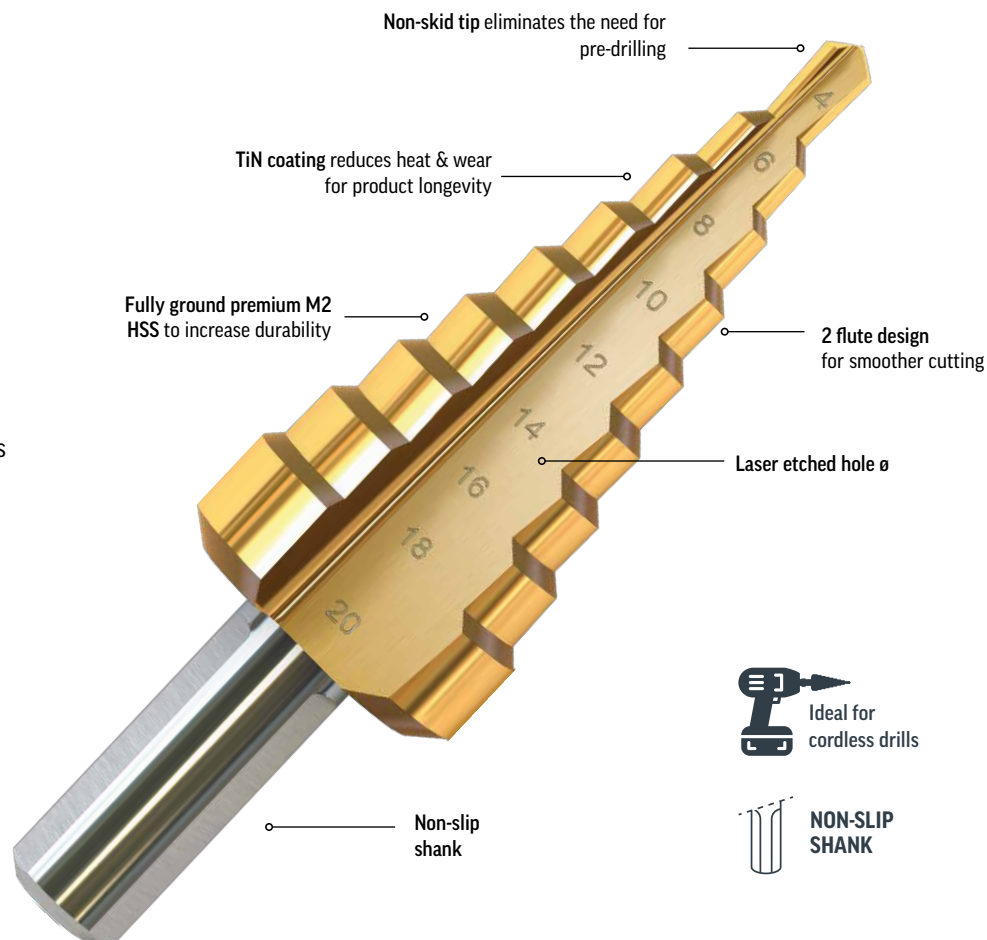

Drills: Sheet metal, steel & plastic

Cut depth: Up to 4mm

Suits: Non-hammer action
portable power drills

Sheet Metal Steel Plastic

Ideal for
cordless drills

BI-METAL Holesaws

Individual

Drills: Sheet metal, steel & plastic

Cut depth: Up to 4mm

Suits: Non-hammer action
portable power drills

Steel

Stainless
Steel

Cast Iron

Wood

Plastic

Product Features

- Variable tooth geometry for consistent cutting ability in a wide range of materials
- 8% cobalt bi-metal gives ultimate performance & superior welding technology prevents tooth strippage
- Manufactured to strict Bristol specifications

Merchandising Options

- Unique modern in-store presence
- Eye catching graphic layout
- Branded header
- Organised by size for easy customer experience

Compatible With

Small Holesaw Arbor
Suits 14 - 32mm

Code: BTWARB-1

Large Holesaw Arbor
Suits 32 - 152mm

Code: BTWARB-2

Product Features

- Pilot drill made from fully ground M2 HSS raw material for extended life
- International standard thread pattern fits all common holesaws
- Heavy duty locking pins lock the holesaw into place while cutting & allows for easy holesaw change over

UNIVERSAL
ADAPTOR

Japanese Tooth x 2

Ideal for: Wood, plastic & timber overlay flooring

- **Japanese tooth design** for precise & plunge cutting
- **Dual action coarse tooth design** for fast timber cutting
- **Super thin 0.8mm precision blade** provides flexibility when working at odd angles while maintaining core strength
- Plunge cut

Cutting depth: 42mm

Bi-Metal Blades x 2

Ideal for: Wood with nails, screws, plastic, fibreglass & non-ferrous metal

- **Bi-Metal** for heavy duty quality & longer lasting teeth
- **Deep cutting depth** allows for thick timber cuts
- **Super thin 0.8mm precision blade** provides flexibility when working at odd angles while maintaining core strength

Cutting depth: 51mm
